

Product launch announcement (Lineup expansion)

Enclosure cooler “COOLCABI” Non-fluorocarbon Energy saving Series

Dear Customer

We would like to inform you of an upcoming launch of 2 new models of “Non-fluorocarbon Energy saving series” in our enclosure cooler COOLCABI line.

Lineup is expanded to 4 models by this release. We believe these products will sure help your efforts on addressing SDGs and carbon neutrality.

Maintenance/optional parts exclusively designed for OCE-E series will be on sale alongside.

We look forward to your continued business in the future.

1. Models/Specifications (2 models)

Type of mounting	Model	Cooling capacity(*)	Rated voltage
Lateral mounting	OCA-E300BC-AW	300W	Single phase 100-240V AC
	OCA-E1600BC-AW	1600W	

Remark (*): Nominal value when both of internal and external temperatures are +35°C

2. Maintenance parts

Item	Model	COOLCABI model
Filter	CF-S11	OCA-E300BC-AW
	CF-S14	OCA-E1600BC-AW
Internal fan	FM-11938P-D48-01	OCA-E300BC-AW
	FM-17560P-D48-01	OCA-E1600BC-AW

3. Options

Item	Model	Description	Voltage rating
Non-drain unit	OCA-ME080	Ultrasonic atomization	Single phase 100-240V AC
Suction port filter	EPF-S3	1 pc.	Common to OCJ-M***-AW
Lead wire for agitation fan	OCA-FME01	3m long	Equivalent to OCA-E

*Agitation fan is not included.

3. Launch date

Monday, September 2, 2024
